ICHMI 2020

2020 International Conference on
Human-Machine Interaction

July 23-25, 2020 | Guangzhou, China

2020年7月23-25日 | 中国广州

2020 International Conference on Human-Machine Interaction (ICHMI 2020) will be held in Guangzhou, China on July 23-25, 2020. We can proudly say that the ICHMI 2020 conference is going to be even more of a truly international and an excellent forum for both young and experienced researchers and seasoned academics to present and defend their work on a global stage. Sharing experiences and difficulties between researchers with mentoring new researchers is where we ensure research is taken to the boundaries of new knowledge..

CONFERENCE PROCEEDINGS

All accepted papers after proper registration and presentation, papers will be published into ICHMI Conference Proceedings, which is indexed by **Ei Compendex, Scopus**.

IMPORTANT DATES

April 25th, 2020 | Submission Deadline
May 15th, 2020 | Notification Date
May 30th, 2020 | Registration Deadline

REACH US AT

Ms. Vera Lee
Conference Secretary of ICHMI
E-mail: ichmi_conf@vip.163.com
Tel.: +86-18123342942

TECHNICALLY SPONSORED BY

ORGANIZATION COMMITTEE

International Advisory Committee

Prof. Wang Jun, City University of Hong Kong, Hong Kong (IEEE Fellow)

Conference Committees Chairs

Prof. Yuanqing Li, South China University of Technology, China (IEEE Fellow)
Prof. Changxu Wu, University of Arizona, USA

Program Committee Chair

Prof. Song Wei, North China University of Technology, China

CONFERENCE VENUE

South China University of Technology | Xihu Hotel
Address: Wushan Campus: 381 Wushan Road, Tianhe District, Guangzhou, 510641

SUBMISSION

By **Electronic Submission System**: <http://confsys.iconf.org/submission/ichmi2020>
By **Email**: ichmi_conf@vip.163.com

CALL FOR PAPERS

Topics of interest for submission include, but are not limited to:

- Active Vision
- Agents and Multi-Agent Systems
- Applications of Perception
- Artificial Intelligence
- Brain Machine Interfaces
- Cognitive Engineering
- Collaborative Design and Manufacturing
- Collaboration Technologies and Systems
- Computer Graphics
- Computer Vision
- Cooperative Design
- Dimensionality Reduction
- Distributed Intelligent Systems
- Ergonomics
- Fuzzy Systems
- Health Care
- Human Centered Transportation System
- Human Factors
- Human Perception
- Hybrid Intelligent System Design
- Image Analysis
- Intelligent Transportation
- Knowledge Representation
- Machine Learning
- Material Appearance Modeling Medical Imaging
- Mental Workload
- Multimedia
- Multiview Learning
- Next Generation Network
- Network Security and Management
- Ontologies
- Patient Safety
- Pattern Recognition
- Perceptual Factors
- Physiological Indicators
- Production Planning and Scheduling
- Protocol Engineering
- Semi-Supervised Learning
- Service-Oriented Computing
- Simulator Training
- Systems Integration and Collaboration
- Systems Safety and Security
- Team Performance
- Video Processing
- Virtual Reality
- Visualization
